

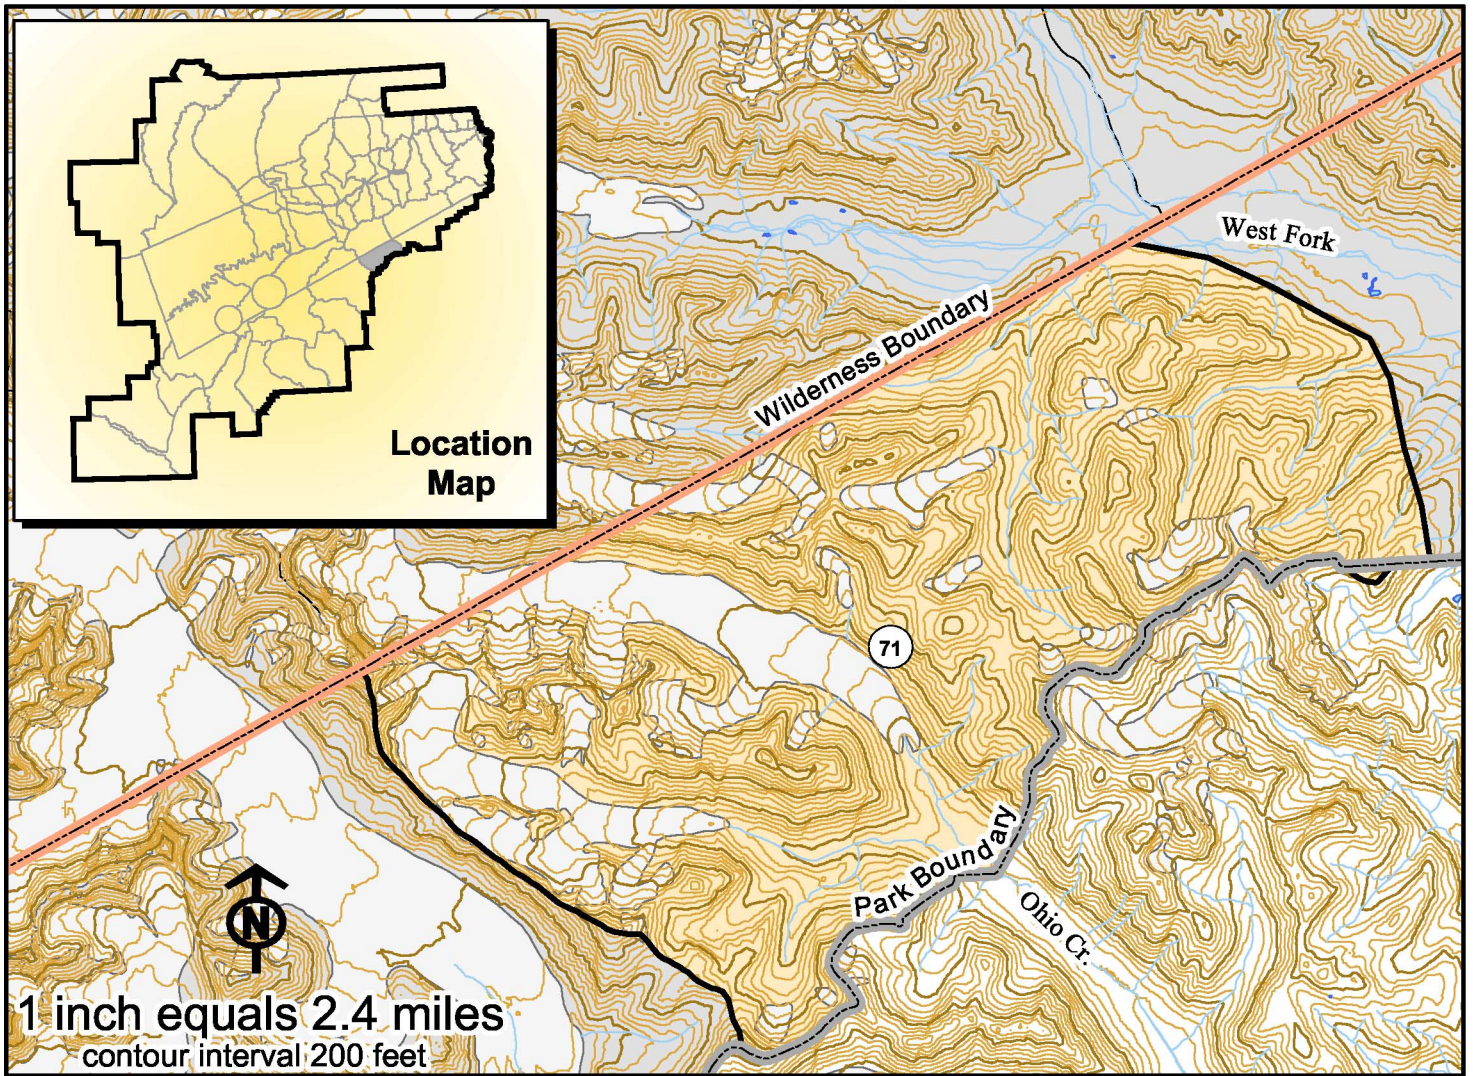

Map 2-43 - Ohio Creek (Unit 71)

Ohio Creek (Unit 71)

Snow and ice, bare ground, and sparse vegetation. Ohio Glacier and remote, rugged terrain where natural sounds prevail. Raptor site in eastern part of unit.

Receives low levels of use because of steep terrain and difficult access. Wilderness experience is generally good. Low encounter rate in summer and fall, but overflights common. High levels of solitude on days without overflights.
